RhED is committed to educating and informing the sex industry of ways in which everyone can work more safely and increase your confidence in and out of the room.

### **"Working in the sex industry ... the times they are a changin'.**

This workshop has been developed in response to increased conversations about the difficulties of working in the current climate of recession. The workshop is about living in today's world, how not to lose a booking, inventive ways of keeping clients and taking care of yourself.

### **STI workshops**

These are informal with a flip chart. They are conducted in response to requests. However, a special focus is being conducted over the six months due to increased rates of chlamydia and gonorrhoea that are being recorded in the general community.

### **Red Rendezvous**

Red Rendezvous is an opportunity for workers to meet regularly throughout the year. This is a chance to share, discuss and contribute to industry issues - the way forward is together. We meet in the city and refreshments are provided.

All workshops are conducted without interfering in the work that you do. They take about one hour. The workshops are conducted on a laptop or with flip charts, making the whole experience an easy and informative way of learning.
